iBone[®]

"I think iBone is a great tool for trombonists... I've started using it to help me memorize and "practice" melodies and lines."
- Robin Eubanks, Trombonist with EB3, Dave Holland, SFJAZZ Collective, 2009 Downbeat Reader's Poll 'Best Trombonist'

"Brilliant! A great tool for teaching trombone, let alone great fun to play with too"
- Carol Jarvis, Trombonist with Seal and Sting

"Future of virtual brass?"
- Music Inc Mag

"...iBone is an interesting experimental blend of gameplay and utility."
- Wired, Game|Life

"Beautiful interface that 'fits' with the cognitive model of real playing! As a former trombonist, I'm kicking myself for not thinking of this."
- Commenter on Boing Boing Gadgets

"Thank you for making this great application! Now, I'm addicted to it. I enjoy playing it with music from my iPod library, outside or in my bed."
- Knowsur, fan from Japan

"I play trombone at my school for band, so I thought I'd buy this. This is by far my favorite app on my iPhone, and probably always will be. This app actually helps me play better and it's a really fun and useful app."
- Matthew G., student

iBone - the Pocket Trombone™ for iPhone and iPod Touch.

iBone not only lets users play along with music in their iPod library, but also with songs from the iBone Songbook, and even shows them how. Designed for the novice through the pro, iBone combines a capable, accurate, and playable simulation of the real instrument with a play-a-long musical game easy enough for anyone to play.

Easy to use:

- 1) Touch or blow to make a sound.
- 2) Slide finger to change pitch.
- 3) Raise and lower the bell to change volume.

Capable and accurate simulation with all the Trombone tricks:

- Standard range of Trombone from low E to high C
- Slur up and down, slide in and out, "fret" against partials.
- Real trombone sound
- Fits the way a Trombone player thinks when they play

Play along with your iPod library:

- Take the lead, harmonize, or solo.
- Learn songs and work out lines.

Anyone can play with the iBone Songbook featuring roboBone™

- Pick one of 6 free songs (or download more), each with background accompaniment.
- Hit the "ring" at the bottom of its fall to hit the right note at the right time.
- Don't know what it's supposed to sound like?
Let roboBone play it for you.

For trombonists:

- Learn songs and work out lines while playing along with any song from your iPod library.
- Instantly visualize the harmonic structure of the horn (partials/positions). intuitively explore alternate positions.
- Supplement the real-thing with an always available 'Bone in your pocket.

For non-trombonists (tappers, hummers, composers, other musicians):

- Get a fun intro to how the real thing works.
- Understand, appreciate, and even get inspired to try the real thing.

Pricing/Availability:

- Available worldwide in iTunes AppStore, \$3.99.
